

SOME MOTHERS

Have found it hard to please themselves in Children's Clothing. This is particularly true of those who have never tried our kind. Our long experience has demonstrated that much invisible merit is possible in Clothing. We insist on having that sort. For all-around value—correctness in style, honest of quality, careful workmanship and finish, and low price ours has no equal.

The above illustration shows some of our SPRING STYLES.

THE ELKS FAIR.

The street fair and carnival to be held in this city in May under the auspices of the local lodge of Elks has fairly begun. Mr. Joseph L. Conley, of Canton, O., an experienced promoter of long experience and one of the originators of this style of enterprise and amusement has been secured by the Elks, and has arrived in the city and will begin active work at once. Headquarters have been opened at 118 North Third street. Any persons desiring any information in regard to fair and carnival can obtain same from Secretary Al C. Atkins or Mr. Conley. The committee on booth space will be seen circulating among the merchants in the near future. Mr. Conley states that all indications point to one of the most successful fairs ever held in this part of the country.

Fish at Bookman's arrives every other day. Shipment due this evening for Friday. Phone and you get the best.

Many Speaking Shakespeare's Language.
In the time of Charles I. there were about 5,000,000 people in the world speaking the language of Shakespeare; at the time of our first national census there were about 12,000,000, one-third of them in the United States; and there are children now going to school who will live to see this vast number trebled.—John Fiske in December Atlantic.

English Verbs "to Note."
Over in England "to note" and "to mote" are both recognized verbs. We find the Pall Mall Gazette saying: "In New York they mote furiously." The old substantive "mote" is now also applied to an aerial auto, which will be in service about 1950 or so.

Padewski's Wife His Agent.
Mme. Padewski is in the future to act as her husband's secretary and business agent. During the pianist's tour here last winter his newly married wife kept a close watch on the tickets which came into the hall where he played, and she liked to know the exact proportions between the complimentary and other tickets. She assumed supervision of the private car in which he traveled, visited the markets and kept herself well posted on the expenses of the tour.

THE RIVER NEWS.

Observation taken at 7 a. m. River 35.4 feet on the gauge, a fall of 0.3 in last 24 hours. Wind, S. W. a good breeze. Weather, clear and cooler. Temperature 34. Fell, Observer.

The City of Pittsburg passed Louisville today en route for Memphis. She will arrive here next Saturday.

The Avalon arrived from Chattanooga at 4 o'clock yesterday afternoon with a good trip, and departed on return trip this afternoon with good business, a large portion of her freight is consigned to Chattanooga.

The J. B. Tinsley passed down yesterday for New Orleans, with fifty coal boats loaded with coal and five fuel boats, which is the biggest trip ever handled by any towboat.

The Boaz with 36 coal boats loaded with coal passed down yesterday for New Orleans.

Weather clear and very cold for the season. This month up to date has been one of the most disagreeable for many years in the month of March, and the "clerk of the weather" should by all means exclude it from the calendar of months as being the most disagreeable disorderly and unpleasant of any month from January to January.

The Clyde got off for Tennessee river at 10 o'clock last night with a big trip.

The City of Memphis, from Tennessee river arrived last night at 12 o'clock for St. Louis with a big trip, and departed at 2 a. m.

The H. W. Butteroff cleared for Nashville at 10 o'clock last night with all the freight she could handle.

The Tennessee is due tonight from Tennessee river. She leaves on return trip next Saturday at 5 p. m.

The Dick Fowler departed on time for Cairo this morning with fair business.

The City of Clifton from St. Louis is due tomorrow morning from Tennessee river, and leaves on return trip at 5 p. m. next Saturday.

The Sunshine which was due here today had not left Memphis last evening, so reported by a gentleman who was waiting at Memphis for her arrival, but came here by rail.

The Louisville Post of yesterday contains the following: Yesterday afternoon from 4 o'clock until dark was an unfortunate time for the coal interests in this vicinity, the only accidents that have occurred during this risk taking place then. The first was to the tow of the Dave Wood, partial particulars of which appeared in the last edition of the Evening Post, and the other, an hour later, was to the harbor towboat Transit, while she was assisting the Tornado down the rapids with a string of coal packages. It seems that during the passage, the Transit dragged on the rocks just above the Pennsylvania bridge, and when she reached deep water below, the fact was ascertained that she had sprung her butts and was leaking at a lively rate. Her hull was almost under water when the deck crew noticed she was going down, then she sounded the distress whistle, all the time drifting still further down the river. The E. T. Slider responded, but before she could get to her the Transit was run as close to shore as possible in front of Fountain Ferry Park, where she sunk within a few inches of her hurricane deck. Her chimneys were carried away, and the high wind that prevailed made matters worse, but her owner, Captain John H. Hoffman, thinks today that she will be easily raised, as she lies perfectly straight. In the accident to the Dave Wood's tow, four coal boats went down, two nearly an hour before the first two, and 100,000 bushels of coal sank. This is insured by the Pittsburg Coal combine, which takes its own risks.
